

Téo Jouette

Puteaux 92800 | Driving licence (category B)

jouette001@gmail.com – LinkedIn: www.linkedin.com/in/teo-jouette

Third-year engineering student in Engineering Physics at the École d'Ingénieurs Denis Diderot, I am currently on an international exchange at the University of Brescia in Italy for one semester. I am looking for a 6-month internship starting in early March.

EDUCATION:

- **Ecole d'Ingénieur Denis Diderot (EIDD) – Engineering degree (5-year programme, Master's level)**
Université Paris–Cité – 3rd year | 2024 – expected graduation: 2027
Major in Engineering Physics
Erasmus exchange at the University of Brescia (Italy), 2026 – 2027
 - **University Preparatory Programme for Engineering Schools (CUPGE) –**
Université Paris–Cité | 2022 – 2024 (two-year preparatory cycle)
 - **Baccalauréat (French secondary school diploma)**
Lycée Agora Puteaux | 2019 – 2022
With Honours
European section, German
-

PROFESSIONAL EXPERIENCE:

- **Co-Coordinator of the Sustainable Development working group at ASTRES**
Alliance Stratégique des Etudiants du Spatial (Strategic Alliance of Space Students) | July 2026 – present
Leading the Sustainable Development working group: writing awareness-raising articles, organising thematic meetings and conferences.
 - **Systems engineering internship on the IGOSat nanosatellite**
APC Laboratory (AstroParticle & Cosmology) – CNES | May – July 2026
Carrying out the link budget and telemetry between the IGOSat nanosatellite and the ground station.
Developing Python and Scilab simulations to analyse and validate the performance of the radio link.
Assessing the link margins and the data transmission capacity against the mission requirements.
 - **Project coordinator – IGOSat satellite mission simulation**
EIDD & Université Paris–Cité | February 2026 (engineering project – 3 weeks)
Coordinating a team of 3 students to update, validate and document an orbital and power simulation tool.
Direct contribution to code changes (fixes, functional improvements) and to test campaigns.
 - **Internship at the Line 1 Train Maintenance Workshop**
Groupe RATP | May – June 2025
Mechanic and maintenance technician
Overhaul and servicing of MP05 and MP89 pneumatic rolling stock
Support for VIOC audits on Quality, Safety and Environment (QSE)
-

SKILLS :

- **Engineering Physics major** (Telecommunications, Signal and Image Processing, Remote Sensing, Control Systems, Kalman filter, Optics and Lasers, Electronics and Semiconductors)
 - **Programming languages** (Python, C, Matlab/Octave – notions of LaTeX, VHDL, Scilab)
 - **Notions of 3D modelling** (Blender, Fusion 360, FreeCAD, CST)
 - **Software: Adobe Creative Suite** (Photoshop, Premiere Pro, After Effects), **Microsoft Office**
 - **Languages:** French (native) / English (B2) / Italian (A2) / German (A2)
-

PROJECTS :

To view my portfolio and my projects: <https://tjouette.github.io/portfolio/>

- **Independent creations and hands-on activities** – building a miniature motorised vehicle, mp3, ...
- **3D modelling**
- **Browser extension development.**
