

Téo Jouette

Puteaux 92800, France | Category B Driving Licence
+33 6 71 86 01 93 | teojouette.contact@gmail.com

Third-year Physical Engineering student at the Denis Diderot School of Engineering, currently participating in an international mobility program at the University of Brescia, Italy. Seeking a **6-month internship** (starting March 2027) in the field of Physical Engineering.

EDUCATION :

- **Denis Diderot School of Engineering (EIDD)**
Physical Engineering Program – Third Year | 2024 – Present
Major : Physical Engineering
Erasmus exchange program at the University of Brescia (Italy) | 2026 – 2027
 - **University Preparatory Program for Engineering Schools (CUPGE)**
Université Paris Cité | 2022 – 2024
 - **French Baccalauréat**
Agora High School, Puteaux | 2019 – 2022
Graduated with Honors
European Section – German
-

PROFESSIONAL EXPERIENCE :

- **Systems Engineering Intern – IGOSat Nanosatellite Project**
APC Laboratory (Astroparticle and Cosmology) – CNRS | May – July 2026
Performed link budget and telemetry analysis between the IGOSat nanosatellite and the ground station.
Developed Python and Scilab simulations to analyze and validate radio communication link performance.
Assessed link margins and data transmission capabilities against mission requirements.
 - **Project Coordinator – IGOSat Satellite Mission Simulation**
EIDD & Université Paris Cité | February 2026 (3-week engineering project)
Coordinated a team of three students to update, validate, and document an orbital and energy simulation tool.
Contributed directly to software development through bug fixes, feature improvements, and testing campaigns.
 - **Intern – Line 1 Train Maintenance Workshop**
RATP Group | May – June 2025
Maintenance Technician
Performed maintenance and overhaul operations on MP05 and MP89 pneumatic equipment.
Assisted with VIOC audits in Quality, Safety, and Environmental (QSE) management.
-

SKILLS :

- **Physical Engineering** (Telecommunications, Signal and Image Processing, Automatic Control Systems, Kalman Filtering, Optics and Lasers, Electronics and Semiconductors)
 - **Programming Languages** (Python, C, Matlab/Octave, LaTeX, VHDL, Scilab)
 - basics of **3D modeling** (Blender, Fusion 360, FreeCad, CST)
 - Software: **Adobe Creative Suite**
 - **Languages:** Français (Native) / English (B2) / Italian (A2) / German (A2)
-

PROJECTS :

Portfolio and projects: <https://tjouette.github.io/portfolio/>

- **Independent projects and hands-on engineering activities**, including the design and construction of a miniature motorized vehicle.
- **3D modeling projects.**
- **Browser extension development.**
